

DEAD

STREET CAR AND MILITIA COLLIDE

Exciting Scene on Jasper Ave.
Sunday Morning When Motor-
man Broke 101st Parade.

**SOLDIERS SMASH
THE CAR WINDOWS**

Motorman, Conductor, and Inspector Arrested and Handed Over to City Police.

[illegible]

a gap in the ranks, at a signal from the conductor, proceeded.

appeared on the scene and ordered the motorman to stop. It is alleged that the order was disregarded. Col. Carstairs then ordered the man arrested. Conductor Henry Stark, Motorman Arthur Elliott and Inspector Blakes were present. Since the only

Following this a number of members of the regiment proceeded to smash up the car with the aid of the butts of their guns. Most of the windows were smashed, likewise the headlight.

Just what disposition would have been made of the offending street car crew it is difficult to state had not Constable Vise appeared on the scene. Seeing that a tie-up of the street car system was imminent if the conductor and motorman were dragged off to the armory, he announced to Col. Carestairs that he would assume responsibility for the

Somehow reluctantly Col. Carstairs accepted this offer and allowed the men their freedom, while the officer took their names, the regimental march continued, and a carload of indignant and wrathful passengers proceeded on their interrupted journey.

of the case against the radial railway employees is impossible to state. This will be decided before Magistrate Byers on Tuesday morning. The case will not be taken up today on account of the fact that Dominion day is a legal holiday.

A prominent citizen discussing the incident with a Bulletin representative recalled a similar case in the city of Toronto a number of years ago, in

lately refused to recognize the command of a military officer and persisted in breaking the ranks. He stated that after the case had passed through various courts it was finally decided in favor of the railway com-

Eye-witnesses state that the band heading the parade had just turned to Jasper avenue from McNeagall avenue when the street car attempted to pass through a gap existing between band and one company and the rest of the regiment. Col. Carstairs, on horseback, was heading the regiment. He rode onto the car tracks in front of the street car and ordered the midorman to stop. The latter continued however, and almost

A similar case occurred in Winnipeg several years ago and was declared in favor of the military when it came before the courts.

Benger's is the most digested of all foods.
It is appetizing and is enjoyed and assimilated foods cause pain and distress.

Benger's Food
For Infants, Invalids, and the aged, the universal recommendation in all cases of severe or temporary illness.

When informed that governmental circles here were unfavorable to the proceedings at Valona, and Italian public opinion was aroused by the demand of the islanders for annexation to Greece, he said: "The local authorities had invited themselves together for mutual assistance. Turkey's Greek subjects have one common aspiration to be re-united to the fatherland, as even as the civilized powers looked on them as being actively engaged in the views of the Italian government."

"We are eternal grateful to Italy for having delivered us from Turkish yoke," Turkey's Greek subjects have one common aspiration to be re-united to the fatherland, as even as the civilized powers looked on them as being actively engaged in the views of the Italian government."

Asked whether, in the event of the islands being reintegrated to Turkey, the formation of a Christian government would be considered a sufficient guarantee for the islanders, Mr. Rouse replied that it would merely raise matters worse.

"The Christian Prince of Serbia," he said, "is neither but an employee of the Ottoman government who carries out its orders and conform to its methods."

Mr. Rouse has not yet been received by Mackenzie, the foreign minister, and probably will not be afforded an interview.

AEGEAN ISLANDERS TO BE ANNEXED TO GREECE

This is their desire since they have been delivered from the Turkish Yoke by Italy—Islanders One Free and Gratitude to Italians.

Rome, June 29.—Mr. Rouse, a Greek lawyer at Alexandria, has arrived here, sent by the inhabitants of the Aegean Islands, now controlled by the Italians, to inform Signor Visconti and his cabinet officials of their aspirations.

When informed that governmental circles here were unfavorable to the proceedings at Valona, and Italian public opinion was aroused by the demand of the islanders for annexation to Greece, he said: "The local authorities had invited themselves together for mutual assistance. Turkey's Greek subjects have one common aspiration to be re-united to the fatherland, as even as the civilized powers looked on them as being actively engaged in the views of the Italian government."

"We are eternal grateful to Italy for having delivered us from Turkish yoke," Turkey's Greek subjects have one common aspiration to be re-united to the fatherland, as even as the civilized powers looked on them as being actively engaged in the views of the Italian government."

Asked whether, in the event of the islands being reintegrated to Turkey, the formation of a Christian government would be considered a sufficient guarantee for the islanders, Mr. Rouse replied that it would merely raise matters worse.

"The Christian Prince of Serbia," he said, "is neither but an employee of the Ottoman government who carries out its orders and conform to its methods."

Mr. Rouse has not yet been received by Mackenzie, the foreign minister, and probably will not be afforded an interview.

TRYING TO BREAK THE DEADLOCK FOR THE NOMINATION

National Committee Takes Situation in Hand With This Purpose,
THIRTIETH BALLOT SHOWS LITTLE CHANGE
New York's Ninety Votes Go to Clark Up to Nineteenth Ballot.

Baltimore, June 29.—The thirtieth ballot concluded at 1.49 p.m. today, found the Democratic National convention still deadlocked. The leading candidates then stood: Clark 354, Wilson 354 1-2, as against 349 for Clark and 341 for Wilson on the twentieth ballot.

Baltimore, June 29.—In an effort to break the deadlock in the presidential nomination situation, before the Democratic national convention, the national committee determined early today to meet at noon. Some of the members of the committee gathered at the individual offices to discuss the tangled state of affairs. Several of the leaders of the various candidates were appointed to act as chairmen. Clark finally called a meeting of the committee.

News of the proposed meeting was quickly through the newspapers, and the various candidates, and plans were made by the leaders in all counts to confer with the committee with the hope that out of the confusion could bring advantage to his candidate.

To Give Tom Hallows.
That the New York delegation would stick by Champ Clark for a total of ten ballots was reported early today and this information started the deliberations of the Wilson, Hartsman and Underwood leaders to stand with outstanding effort for their candidate.

It was reported that after the nineteenth ballot New York would desert Clark and throw their vote somewhere else. Some two months ago the railway company agreed to pay for the railway to New York for the purpose of making a trip to New York. It was reported that the company thought would have to be changed. It was then that the company was to be paid for the railway to New York for the purpose of making a trip to New York.

One result of present appeal to the committee proposed extension to the railway will not be made to this year. The appeal came before the Senate Committee until some time in November. The extension was made in the Senate. The extension was made in the Senate.

The early birds, which included Chairman James, were again, among the main centre of activity this morning, and that the convention would decide its fate. Already special trains are carrying away large parties which had come to see a candidate close. It is the general feeling that if Clark is to win he must win Clark. A deadlock might destroy the commanding lead he has already established. The problem before the Clark forces was two-fold. First, to hold their present strength intact against defections, and second, all 175 1-2 votes to his 349 shown on the twentieth ballot, to give him the necessary two-third majority.

New York Not Dependable.
The first problem was not a great one, but had its difficulties. The 30 New York votes with Clark from the ninth to the twelfth ballot were not regarded as dependable if the struggle were prolonged, as the New Yorkers were still feeling their way ready to stand by Clark if his forces could show an ability to concentrate the field, but not to remain with him indefinitely in a prolonged contest.

The main body of Clark men were leaning towards a split, although it was felt some of them who have formerly had strong firm affiliations, might develop a tendency to try Wilson if the contest were prolonged. This consideration led the Clark men to look at all their resources in making the contest quick.

Key to Situation.
The Underwood forces were looked on as playing an important part in the present critical stage of the contest. They were standing alone with no evidence of wavering during the early hours. Their 113 votes on the twelfth ballot made them in a sense the key to the Clark situation. For with them the Clark total could be augmented well along towards the necessary two-thirds. But at the Underwood headquarters there was no the slightest indication of directing the vote to any of the other candidates.

Most Come to Us.
Senator Hanksman, of Alabama, chairman of the Underwood campaign forces, would not go over into the Clark camp.

"Why should we go to Clark?" asked Senator Hanksman. "Our votes are for Underwood. We will not move. We will stay with the Underwood forces. We will stay with the Underwood forces. We will stay with the Underwood forces."

Reports were current early today that if Underwood would drop aside for Clark, the latter leader of the Clark forces would be the strongest. Clark supporters would not say whether these reports had any basis in fact. It was admitted that the Underwood people now held the key to the situation.

BUSINESS CONDITIONS ARE GOOD, SAYS DUN'S

Review of Trade Conditions Throughout Canada Based for Season as Good is Stimulated by Warm Weather, Which Has Freshened Demand.

New York, June 29.—Dispatchers to Louis Review from branch offices of R. O. Dun & Co. in the leading trade centres of the Dominion of Canada indicate that satisfactory conditions are prevailing and that the distribution of reasonable commodities has been facilitated by warmer weather.

At Montreal warm and settled weather has favored the demand for summer dry goods and travelling men are securing a good volume of trade orders. There is a movement of most staple lines with prices firm, and manufacturers as a result are well employed.

At Quebec wholesale trade is satisfactory. Volume of orders is doing a big business in ready-made, warmer weather having increased the demand in certain lines. Local manufacturers are receiving almost equal claims of orders.

Wholesale trade at Toronto continues fairly active and all staple lines remain very firm. There is a good volume of business in dry goods and summer fabrics are in better demand while orders for fall delivery are encouraging. Leather is firm.

At Hamilton conditions have improved with warmer weather. At London manufacturers are receiving a good volume of orders and manufacturers are going fairly in consumption.

Weather conditions in the far west, the southern side more favorable than for many years at this time. Winnipeg reports that the wheat movement of merchandise is well maintained, but that there is a lull in the line because of seasonable weather. This, however, is regarded as favorable for the crops. Wholesale grocery business at Winnipeg report a continued good demand for staples. Heating reports that warm weather, following rain, has been very beneficial to the crops and that orders from all directions, especially from the west, are showing improvement in all commercial lines.

Good earnings of all Canadian railways.

Empire Park has already made the Investors \$50.00 on each lot since March 15th.

BIG PREPARATIONS AT
UNIVERSITY OF ALBERTA

New Buildings, New Books, New Ap-
paratus and More Professors to
Help Larger Student Body Next
Winter—Variety in Help Literary
and Technical Subjects.

The University of Alberta is a busy
place even during vacation. In con-
tinuation of the summer building program is being
carried out in order to increase the
efficiency and accommodation of the
university for the coming winter ses-

A second residence building, a three
story office structure, is in course of
erection. This building will have a
capacity for 110 students in resi-
dence, but for the present only 60 stu-
dents will be accommodated. It is
that more rooms will thus be found
for students in residence in Athabasca
hall, which will now have an ap-
proximate capacity of 150 students in
residence.

This new building also will contain
the library, several class rooms and
the administration office.
State Education Costs Little.
The mid-summer matriculation ex-
aminations are not yet over and the
university classes do not begin till
September, yet 24 students have al-
ready applied for rooms for next
winter.

One advantage of a state university
is found in the smallness of the
cost, only \$20 per year for arts stu-
dents, and \$40 per year for science
students. This is half what sim-
ilar universities charge. The govern-
ment supply the buildings and
equipment and pay the salaries of the
large staff of twenty-two professors,
lecturers, and several hundred stu-
dents, men or women. The students
can secure in the residence buildings
at the university grounds a furnished
room for \$5 per month and board
at \$4 per week. The term lasts from
September 24th to May 1st, and the
rooms are over by May 1st. During
the vacation many students care to
stay to pay their expenses during the
next term.

During the session of 1911-12 there
were 160 students in attendance with
300 students in the first graduating
class in arts. Last year the en-
rolling class will likely be over 250
and in 1913 the first students will gradu-
ate in bachelors' degrees.

\$25,000 for Development.
The faculty library of 1912 num-
bers 1,340 volumes, and this year
the catalogue will be revised for \$25-
000 will be spent on increasing the
library and equipment. There is a
special increase in the efficiency of
the department of applied science and
engineering.

Several lecturers will be added to
civil, mechanical engineering
and civil engineering and a new pro-
fessor in biology, which is part of a
course in agriculture. Two new pro-
fessors have been added in the de-
partment of science for the better
teaching of chemistry and biology.

To Help Rural People.
This year the university has opened
a new department for extension and de-
velopment of the extension lectures
and provides in various ways for the
benefit of the province. These lectures
will reach a limited number, principally
the educated people of the larger
reserves.

The aim in future is for the de-
partment of extension to reach the
general public of the province and
to be of assistance in debating clubs
and literary societies in the towns and
villages and even in the rural commu-
nity of the province. An information
bureau will be established with a view
to giving special help to speechmak-
ers and debaters even in the rural
communities.

The university dining room is being
newly converted into a dining room
135 feet long and 45 feet wide.
The grounds have been leveled,
permanent walks built, the lawns
mowed and a tennis court provided.
The students will hardly know the
vacant when they return in the fall.

Provincial Laboratories.
At the University building is situated
the provincial laboratory in charge of
Dr. D. H. Hewitt, B. A., M. D., pro-
fessor of bacteriology and zoology.
In an upstairs room, he has a complete
equipment. Here diagnosis is made of
communicable diseases such as dip-
theria, typhoid fever, pulmonary tuber-
culosis and others.
A complete laboratory is also made for
the study of diseases and for the stu-
dent's general department in clinical
science.

Alberta College Development.
Two stores have been added at the rear
of the Alberta College, still in course
of construction. It is now the largest
building in the city. The college
will now accommodate 150 stu-
dents in residence. Applications have
already been received from nearly that
number. About 100 theological stu-
dents are expected next session.
The students in residence in 1912
numbered 33 theologians; 42 matricu-
lating; 28 residents of Alberta College

were students at the University. Last
session two A. C. students graduated
in theology and four A. C. students
graduated in arts. In 1912 Alberta
College expects to have 12 students
graduating in theology.

The staff of Alberta College has been
increased by the appointment of Miss
Pekelbolder, B. Sc., former principal
of Ontario Ladies College, Whitby, to be
lady principal of Alberta College, and
F. R. McCall, B. A., of the graduat-
ing class of 1912, to the University
of Alberta has been appointed registrar
of Alberta College.

NEW TECHNICAL COLLEGE.
The name has not yet been chosen
for the new technical and industrial
school for boys and girls to be erected
on the south side by the authori-
ties of Alberta college. A fine site of
240 acres has been purchased in
R. L. 42 and part R. L. 41, on the
south bank of the Saskatchewan river
to the south of the city of Edmonton.
The building will be erected in
1913 if strict cost conditions can be
secured, and it will be the aim of the
committee in charge to establish a
first class educational institution of a
type new to the province. A study
will be made by Principal Hewitt and
similar institutions elsewhere with a
view to getting the best ideas for the
institution to be established here.

**ROBERTSON PRESBYTERIAN
COLLEGE.**
The Robertson Presbyterian Theo-
logical College was established only
two years ago at the General Assem-
bly in Halifax, and its first session
was held last winter with ten students
in residence and twenty other stu-
dents taking work extra muros. The
college now has the following
staff: Principal, V. W. Hyde, D.D.,
M.A., B.A. For 1912 the faculty
will, it is hoped, have another pro-
fessor.

The bulk of the students are from
the British Isles, either directly or
indirectly. The extra muros students
are studying while on their home
mission fields.
Last year the college board bought a
large dwelling-house on University
avenue, a little west of the main
entrance to the Athletic Grounds and
facing Second Street West. This
temporary building was, of course,
full. The ground is now broken and
the temporary building is being re-
built to provide more room for
resident students.

The library has grown from 450
volumes of last year to 880 volumes
for next session. Four students
were awarded in 1912, while eleven
are already prepared for 1913.

The Presbyterian ladies of Edmon-
ton on both sides of the river, gen-
erally form the nucleus of the stu-
dent body, and the Presbyterian ladies of
Calgary and Lethbridge are con-
sidering in forming the new build-
ing.

SOUTH SIDE PERSONALS.
C. A. Curtis, of Calgary Institute
staff, accompanied by his wife, will
attend the vacation in southern
Ontario.

Principal T. W. of the University of
Alberta, is now in London, England,
visiting the continent of the univer-
sities of the British Empire. He is
expected to return about the end of
July.

Principal Riddell, of Alberta Col-
lege, expects that next week he
will inspect similar institutions and
get up-to-date ideas to help in com-
pleting arrangements for the im-
minent opening of the new Techni-
cal and Industrial College at the end of
the South Side.

E. R. Laycock, B.A., of Alberta Col-
lege, is taking instruction at a
Windsor on the C.N.R. during the
summer months.

Prof. C. Jackson, M.A., of Alberta
College, is supplying Westminster
Methodist Church, Lethbridge, for the
summer months.

Prof. C. B. Bland, B.A., M.D., of
Alberta College, is supplying one of
the Methodist churches in the city of
Toronto.

Miss M. V. Hicks, of Alberta Col-
lege, is taking instruction at a
vacation on the Pacific coast
at McCall, B. C. Her husband, Al-
berta College, will visit Provincial
in the interests of the college
during the next few weeks.

**THEOLOGICAL COLLEGE CO-
OPERATIVE.**
Co-operation between Robertson
Presbyterian and Alberta Methodist
Theological colleges has been con-
sidered for both years. It is
not only a question of time when
it will be put into practical effect,
but also a question of the distance between
the college buildings. This handicap
will be removed when the stu-
dent people erect a building on the
grounds of the University of Alberta
on a site near Alberta Methodist The-
ological College.

CHICAGO ATTORNEY SUES ACTRESS FOR INGLEWOOD LOTS

Mrs. Katherine Teresa Campbell,
Divorced, Tells Her Story in
Supreme Court.

PLAINTIFF PAID FOR HER BOARD AND CARE

John F. Waters Says He Be-
friended Defendant and Se-
cured Her Property.

Katherine Teresa Campbell, an actress of Chicago, gave her testimony before Mr. Justice Duff in the divorce court yesterday at defendant in action brought by John Franklin Waters, a Chicago attorney, who said he for the recovery of \$11,000, money which she alleged she had taken from the defendant on a promissory note made in his favor at Chicago in 1911. He asked for payment of the plaintiff's wages for her services in the past, and for the recovery of the \$11,000, which the plaintiff admitted was mortgaged to him to secure the \$11,000.

Defendant's Story.
Mrs. Campbell told her story and how she came to meet Waters, who said she had no business training and was ignorant of business matters outside her profession. She said she was born in London, March 18, 1885, the second of seven children of Patrick Campbell, an actor. After five years of married life she got a divorce from her husband, who was a lawyer, for \$25 per week an alimony. This husband was now in Vancouver, B. C.

Meeting With Plaintiff.
In a chess cafe in Chicago she met the plaintiff, who said she had alimony owing her by her husband. He promised her that if she could prove the order of the court, respecting the alimony, he would recover it for her and it would not cost her more than the expense of drawing up some papers.

In lieu of the alimony she accepted the transfer of 10 acres of timberland in Alabama and twelve lots in block 10, north Ingleside. On the timberland there was being paid for payments which had not been met, and the lots in North Ingleside were mortgaged to the extent of \$400. Eventually she agreed with the defendant that if he would sell the timberland land and secure her the title to the timberland lots on which he was to discharge the mortgage she would give Waters a half of the price in the sale of the 40 acres. Waters said he had a customer for the land and it was arranged that if he sold for \$22,000 he would pay him \$11,000.

Mrs. Campbell said that instead of his selling the Alabama property he declared and the company foreclosed and sold the land. She denied that her obligations to Waters were discharged. She said she had a letter from Waters dated June 1, 1912, in which he said that he had made an arrangement with her to give him half of what he got for her property. She stated a paper at the defendant's suggestion but was told that it did not touch the defendant's property. Eventually she agreed to discontinue and said her property. The defendant had asked her several times to transfer to him six of the lots but she was not so foolish to do as he asked.

The plaintiff, Waters, in the witness box, said he had advanced the defendant money from time to time, for food, for her car fare and for maintenance for her sister when she was ill. He also advanced her the \$11,000, which she owed today. He said he had got for the defendant \$14,000 worth of property and had never got a cent for his services.

The plaintiff was represented by H. H. Parson, while C. C. McCull appeared for the defendant.

Mr. McCull asked for a dismissal of the action, but his learned colleague was not satisfied on the preliminary facts to dismiss the case and asked for evidence.

TOILET TO INSTALL GAS PLANT AT ONCE

Town Council Decides to Submit
Plans for \$20,000 for Installing
System—Purchase of Industrial
Site Property Recommended—
Contractors Now Consulting Gas in
Small Pipe.

Bulletin Special.
Toledo, June 28.—Yesterday the contractors working on the gas works commenced to connect the line to the six-inch pipe. This is being accomplished by running large quantities of cement along the hole. The cement will be blown up on the outside of the pipe and when it hardens will close up all the apertures. In addition to concentrating the flow of gas to the six-inch pipe the object of the contractors is to keep out of the gas plant the water which was struck at a higher strata than the gas.

The gas well was capped last night and notwithstanding the leakage through the valves and that coming up around the pipe, the pressure rose from 100 pounds per square inch to 100 pounds per square inch. The contractors believe that when the leakages are stopped that the pressure will be again doubled.

Gas Distributing System.
Next week a bid will be submitted to the voters of Toledo asking their approval of the raising of \$20,000 for the installation of a gas distributing system. It is proposed to lay six-inch mains on Main street and Cookson avenue, and three-inch mains on Second, Third, Fourth, Fifth and Sixth avenues and on First, Third, Fourth and Fifth streets. Mr. James A. Jones of Chicago, has been recommended to the council for the position of gas works superintendent.

Other houses which the raters of Toledo will vote upon at the same time as the bid for the gas distributing system will be for a \$10,000 for additional fire protection, and \$10,000 for other permanent improvements.

The council have undertaken the drilling of several test holes to the northwest of the town in an effort to locate a water supply. Also the council recommended the purchase of 140 acres on the southeast of the town for industrial sites.

OLD BILL MINER AGAIN ESCAPES FROM PRISON

Millville, Georgia, June 28.—"Old Bill" Miner, the aged outlaw, serving a term for life, robbery in Georgia, escaped by slipping his shackles last night and with a companion left the state convict farm.

This is the second time Miner has escaped from the prison farm in the last few months. In his first flight he was harbored by an ill contraband and would be recaptured.

Miner, whose real name is supposed to be Anderson, is wanted by the Canadian authorities on the charge of train robbery. He has also escaped from prison some three or four times.

Miner, whose real name is supposed to be Anderson, is wanted by the Canadian authorities on the charge of train robbery. He has also escaped from prison some three or four times.

HEAD TO PURCHASE RIGHT-OF-WAY FROM ACTUAL FARMER

C.N.R. Right-of-Way Agent Tells
of Development Along Peace
River Line.

C.N.R. OFFICIALS GO OVER BRAZEAU BRANCH

Steel Laying on E.D. & B.C. Is
Delayed By Non-Shipment
of Rail Fastenings.

General Manager Macdonald, of the Canadian Northern, Superintendent A. Wilson and Chief Engineer A. T. Fraser, have been on the Peace River line, travelling over the company's Brazeau line and the Saskatchewan-Calgary line. Their present itinerary includes the Peace River station and each of these lines the work is going forward rapidly.

Robert Blackerton, the C.N.R. right of way agent was in town Friday and left at night for Winnipeg. Mr. Blackerton had been over the other line making former arrangements regarding the company's right of way along that route and also to Athabasca in connection with the property acquired by the company at that place.

Mr. Blackerton has been in the west for a considerable time. In the latter part of the year he was over the line of the company's Peace River branch all the way up to Grande Prairie. Mr. Blackerton says he finds the country rapidly settling up and most of the land of way has to be purchased from the actual farmer.

After leaving on the Edmonton-Dunvegan and British Columbia railway can be temporarily delayed owing to the non-shipment by the contractors of the fastenings for the rails. The majority of the first shipments of steel is already on the ground.

Material Ordered for Home House.
A British representative learned today that the material for the erection of the round house on the C.N.R. property adjoining the St. Albert trail, had been requisitioned and that in the course of a week or two things would be moving along rapidly.

After the half mile or so of steel has been laid, the company will put on a big gang with an engine and all the latest equipment for steel-laying. By August the company will probably have sixty miles of track down and before the end of the season the steel will be laid for the first 120 miles as far as the crossing of the Athabasca river.

WILL NOT SUPPORT TAFT

Des Moines, June 27.—I will not be a member of any committee managing President Taft's campaign, neither will I personally support him. This was the declaration here today by C. F. Frank, chairman of the Iowa republican state committee. Mr. Frank took the position that for the republican state ticket should have the support of republicans "knowing that actions of an individual and who stand for honesty in politics are justified in not supporting Mr. Taft."

No Damage From Dry Weather.
Winnipeg, June 28.—While there can be no denial of the fact that rain is needed in most sections throughout the west, up to the present time no indications have come to light showing that any actual damage has been done. This is the summary of the report that has reached the Canadian Pacific railway officials through its agents, and summarizes up to Friday night. Weather throughout the west has been favorable generally, and no damage from dry cases is yet visible.

The early season grain has not shown any standing still on account of lack of moisture but the latest season is beginning to feel it. There were a few local showers in the Alberta section.

London, June 28.—Louis Stuart, member of "Parliament" and several other musical players and some appeared in the banqueting court today. Mr. Stuart stated that he had for some years been at the hands of money lenders who received the bulk of his royalties. His liabilities are \$24,000, his income has amounted to between \$24,000 and \$25,000 a year.

STRAWBERRY.
Bulletin News Service.
The weather conditions continue to be almost ideal. During the last month of hot weather the roads are better than they have been for almost three years.

Vandalism continues to work
on the road with a pair of nearly twenty men and several teams. If 2, 4, 6, 8, 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100,
